

The Sanctuary of Asklepios at Epidauros was the most celebrated healing centre of the ancient world. The ancient Greeks approached health from a holistic point of view, and the Sanctuary included a theater, gymnasium, and stadium as well as traditional medical treatments. In Epidauros, the vast site of temples and hospital buildings is a tribute to the healing cults of Greek and Roman times.

3 August 2006

Sanford Auditorium

**The Uniformed Services
University of the
Health Sciences**

Bethesda, MD
